Acoustical Glass Wall*

NEW

**IN LINE
PASS
DOOR**

**LEVER
CLOSURE
PANEL**

*Best in class acoustical performance
with maximum clearview*

FEATURES

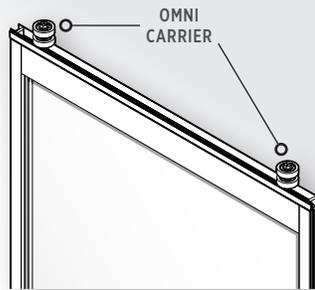

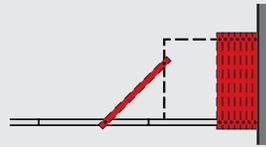

- » **MAXIMUM CLEARVIEW & EASY OPERATION**
Low profile acoustic glasswall with ½" premium clarity glass and 1-hand operation
- » **BEST IN CLASS SOUND MANAGEMENT**
STC range of 33 to 38
- » **TOP SUPPORT**
No Floor tracks that gather dirt or cause injury
- » **HUF COR TRACK SYSTEMS**
Proven performance in thousands of movable walls. Panels can be stored in a wide variety of ways.
- » **TIGHT INTERLOCKING PANELS**
Easy panel alignment with superior acoustics. Reduces floor pins needed, saving money.
- » **LOW PROFILE ALUMINUM FRAME**
Best combination of light weight, strength, appearance and clearview
- » **ULTRA-THIN PANELS**
1-¾" [44] panels are less bulky than other acoustical glasswalls - easy to move with tighter stack depths
- » ½" [13] SINGLE PANE GLASS
Attractive, easy to clean and easier to maintain than drywall. Laminated options provide additional safety, good sound control and allows for translucent and color options.
- » **LOW IRON GLASS OPTION**
Provides nearly perfect transparency & clarity
- » **CUSTOM MANUFACTURED**
Panels are custom designed to fit the opening for accuracy and better flexibility
- » **NEW FACE AND EDGE PINS**
Excellent panel and door security that is easy to use
- » **NEW PASSDOOR & LEVER CLOSURE OPTIONS**
Added pass-through & configuration flexibility
- » **NEW HANDLE OPTIONS**
Allows customization of the look and feel of the glasswall system
- » **NEW LOCK OPTIONS**
Replaceable cylinders and small format interchangeable cores including a prep for lock option Superior flexibility in the field for master-keying.
- » 1"[25] TOP/BOTTOM CLEARANCE:
Excellent installation flexibility - accommodates a wider range of unlevel floors, beam deflections and mis-measured openings
